

Removal of unspent fumigant Procedure

The following information will be required prior to the arrival of affected vessels:

- a) Notification of any fumigation process undertaken on board the vessel on transit to Port Taranaki.
- b) Notification of time fumigation process commenced on board
- c) Quantity and type of fumigant used
- d) Hatches, holds, spaces etc. in which fumigation was conducted
- e) Intentions regarding disposal of spent or unused fumigant
- f) Hatch/Hold/spaces ventilation procedures to be employed.

All bulk product vessels with cargo for discharge at Port Taranaki are required to:

- a) Supply the above information OR
- b) Forward in writing a statement that all hatches/spaces on board are free of fumigant.
